THE ROAD WE'VE TRAVELLED TOGETHER

Massachusetts has been one of the hardest hit states in the U.S., with over 86,000 confirmed cases and 5,700 deaths through May 17, 2020.

On March 23, 2020 Governor Baker issued an executive order closing all non-essential businesses across the Commonwealth in order to reduce the transmission of COVID-19.

In combatting COVID-19, the Baker-Polito administration has:

- In partnership with healthcare providers and municipalities, conducted more than 460,000 COVID-19 tests, making Massachusetts a top-5 per capita tester
- Launched a national model for contact tracing
- Committed over \$1 billion in funding to support our health care system
- Distributed more than 10.5 million pieces of personal protective equipment

Number of confirmed COVID-19 cases, per 100k population (thousands)

As of 5/12/2020

GETTING STARTED ON THE PATH TO REOPENING

On April 28, Governor Baker formed the Reopening Advisory Board, chaired by Lieutenant Governor Karyn Polito and Secretary of Housing and Economic Development Mike Kennealy, and comprised of representatives from the business community, public health officials, and municipal leaders from across the Commonwealth.

In crafting this report, the Reopening Advisory Board and other state officials:

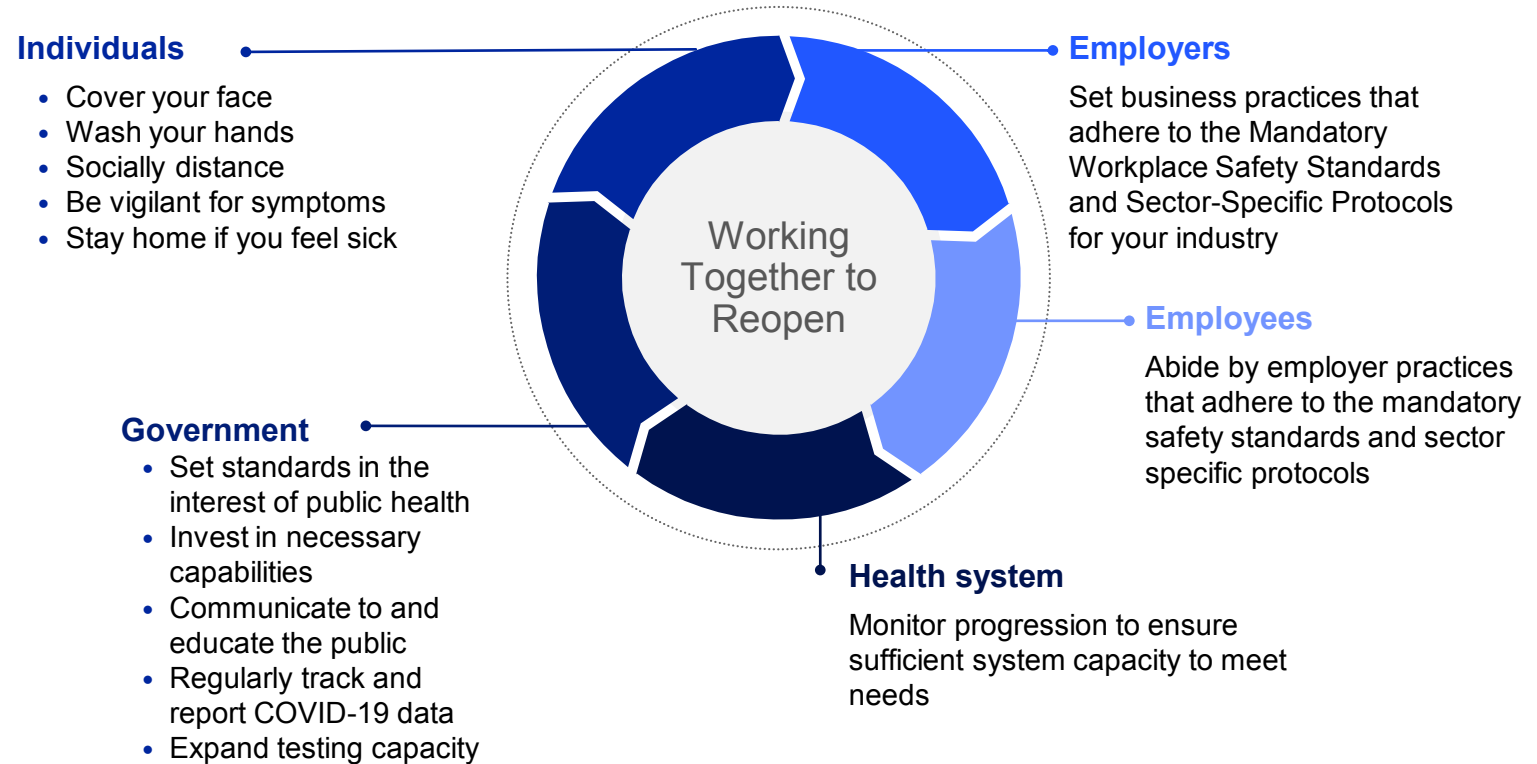

- Heard testimony from more than 75 business associations, labor unions, non-profits, and community coalitions that collectively represent more than 112,000 businesses and more than 2,000,000 employees
- Received and reviewed more than 4,600 written submissions from associations, businesses, and residents
- Engaged stakeholders and analyzed information in over 45 hours of Zoom meetings over the past 20 days

WORKING TOGETHER TO REOPEN

Until a treatment or vaccine for COVID-19 is available, life will not return to normal. We each have a collective responsibility to ensure that reopening proceeds smoothly and safely. Everyone must follow public health directives and use common sense to protect yourself, your family, your neighbors, and vulnerable populations across the Commonwealth.

REOPENING WILL BE DRIVEN BY PUBLIC HEALTH DATA

- Key public health metrics will determine if and when it is appropriate to proceed through reopening phases
- Public health data trends indicating significant increases in viral transmission could result in returning to prior phases or closing sectors of the economy

7-day avg. of positive test results, by date patient tested (%)

MASSACHUSETTS TESTING & TRACING STRATEGY

- **Test:** Increase testing capacity and number of people tested so people with COVID-19 are aware of their diagnosis and can self-isolate
- **Trace:** Trace all contacts of people with COVID-19 to ensure safe quarantine and testing for those who need it
- **Isolate:** Minimize transmission by isolating and quarantining individuals with COVID-19 and their close contacts
- **Support:** Provide support so individuals can safely isolate and quarantine

Summary of daily testing estimates by population

Key: ■ Diagnostic – Symptomatic Individuals ■ Diagnostic – Close contacts □ Surge / Surveillance □ Under utilized lab capacity

REOPENING WILL BE DRIVEN BY PUBLIC HEALTH DATA

Dashboard of public health indicators

- Starting on May 18, the COVID-19 Command Center will give updates on six key public health indicators
- Before and during reopening, these metrics must continue to show progress

Below is the status as of **May 18, 2020**:

Indicator	Status
1 COVID-19 positive test rate	
2 Number of individuals who died from COVID-19	
3 Number of patients with COVID-19 in hospitals	
4 Healthcare system readiness	
5 Testing capacity	
6 Contact tracing capabilities	

Legend

-  Positive trend
-  In progress
-  Negative trend

REOPENING AND FIGHTING COVID-19

As we reopen the Massachusetts economy, the Baker-Polito administration will provide guidance that each sector, industry, and business must follow:

Social guidance

General social guidance

Guidance all individuals must follow to reduce the risk of new COVID-19 transmission:

- Cover your face
- Wash your hands
- Socially distance
- Be vigilant for symptoms
- Stay home if you feel sick

Business guidance

Mandatory Workplace Safety Standards

New standards for all workplaces that are designed to reduce the risk of new COVID-19 transmission to employees and customers

Sector-Specific Protocols and best practices

Additional safety standards and recommended best practices to reduce the risk of new COVID-19 transmission in specific industries (e.g. restaurants, construction, etc.)

REOPENING AND FIGHTING COVID-19

On May 18, the Baker-Polito administration issued the Safer At Home Advisory:

Cover – Wash – Distance – Vigilance

- ✓ People over the age of 65 and people who have underlying health conditions – who are at high risk for COVID-19 – should continue to stay home except for essential errands such as going to the grocery store and to attend to healthcare needs
- ✓ All residents are advised to leave home only for healthcare, worship and permitted work, shopping, and outdoor activities
- ✓ All residents are **REQUIRED** to cover their face when they cannot maintain six feet of social distance in public
- ✓ All residents are advised to wash their hands frequently for at least 20 seconds with soapy water
- ✓ All residents are advised to be vigilant, monitor for symptoms and stay home if you feel sick

What Safer At Home Means

- Only leave home for health care, permitted work, shopping, and outdoor activities
- When going to the pharmacy ask if you can fill your prescriptions for 90 days if possible; for some medications this is not allowed. If you are at high-risk, try to use a mail-order service
- Don't participate in close contact activities such as pick-up sports games
- Use remote modes of communication like phone or video chat instead of visiting friends or family who are high risk for COVID-19
- Refrain from visiting nursing homes, skilled nursing facilities, or other residential care settings
- Parents should limit play dates for children

REOPENING AND FIGHTING COVID-19

Mandatory Workplace Safety Standards for reopening

All businesses and activities, as they reopen, must meet the following minimum safety standards:

Social Distancing

- All persons, including employees, customers, and vendors should remain at least six feet apart to the greatest extent possible, both inside and outside workplaces
- Establish protocols to ensure that employees can practice adequate social distancing
- Provide signage for safe social distancing
- Require face coverings or masks for all employees

Hygiene Protocols

- Provide hand washing capabilities throughout the workplace
- Ensure frequent hand washing and ensure adequate supplies
- Provide regular sanitization of high touch areas, such as workstations, equipment, screens, doorknobs, restrooms throughout work site

Staffing and Operations

- Provide training for employees regarding the social distancing and hygiene protocols
- Employees who are displaying COVID-19-like symptoms do not report to work
- Establish a plan for employees getting ill from COVID-19 at work, and a return-to-work plan

Cleaning and Disinfecting

- Establish and maintain cleaning protocols specific to the business
- When an active employee is diagnosed with COVID-19, cleaning and disinfecting must be performed
- Disinfection of all common surfaces must take place at intervals appropriate to said workplace

Note: Businesses operating to provide Essential Services, as defined in the Governor's March 23, 2020 Executive Order, updated on March 31, April 28 and May 15, may remain open and have until May 25, 2020 to comply with these mandatory safety standards.

REOPENING AND FIGHTING COVID-19

Sector-Specific Protocols and best practices

The Baker-Polito administration has developed specific guidance so that each industry reopens as safely as possible. Businesses are expected to implement these protocols in addition to the more general Mandatory Workplace Safety Standards.

As of May 18, materials for the sectors eligible to open in the first phase of reopening are included on the [mass.gov/reopening](https://www.mass.gov/reopening). Guidance for sectors opening in later phases will be posted online in advance of those phases. Each sector will have access to:

Sector Circular

Mandatory safety standards and recommended best practices in social distancing, hygiene protocols, staffing/operations, and cleaning/disinfecting for each sector.

Sector Checklist

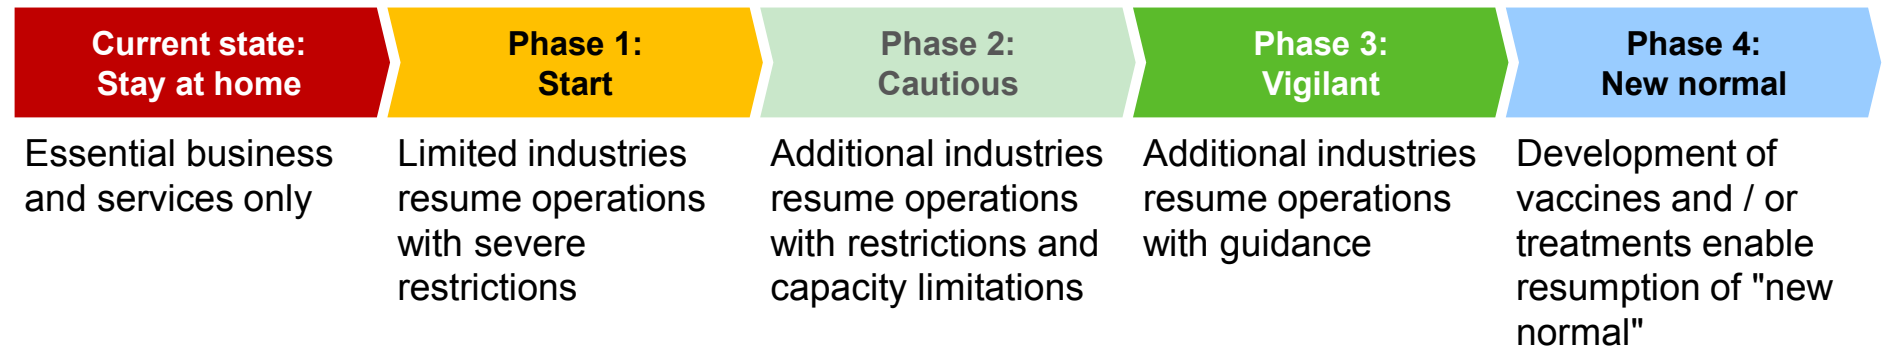

Checklist developed to serve as guidance for employers and businesses of all sizes as they adjust operations to address worker and customer safety.

Note: Businesses operating to provide Essential Services, as defined in the Governor's March 23, 2020 Executive Order, updated on March 31, April 28 and May 15, may remain open and have until May 25, 2020 to comply with their industry's sector specific protocols (if applicable).

REOPENING MASSACHUSETTS IN PHASES

The goal of this phased reopening plan is to methodically allow businesses, services, and activities to resume, while avoiding a resurgence of COVID-19 that could overwhelm our healthcare system and erase the progress we've made so far.

- **Each phase will last a minimum of three weeks and could last longer** before moving to the next phase
- **If public health data trends are negative**, specific industries, regions, and/or the entire Commonwealth may need to return to an earlier phase
- The Commonwealth will **partner with industries to draft Sector-Specific Protocols in advance of future phases** (example: restaurant specific protocols will be drafted in advance of Phase 2)
- **If we all work together to defeat COVID-19, we can proceed through each phase**

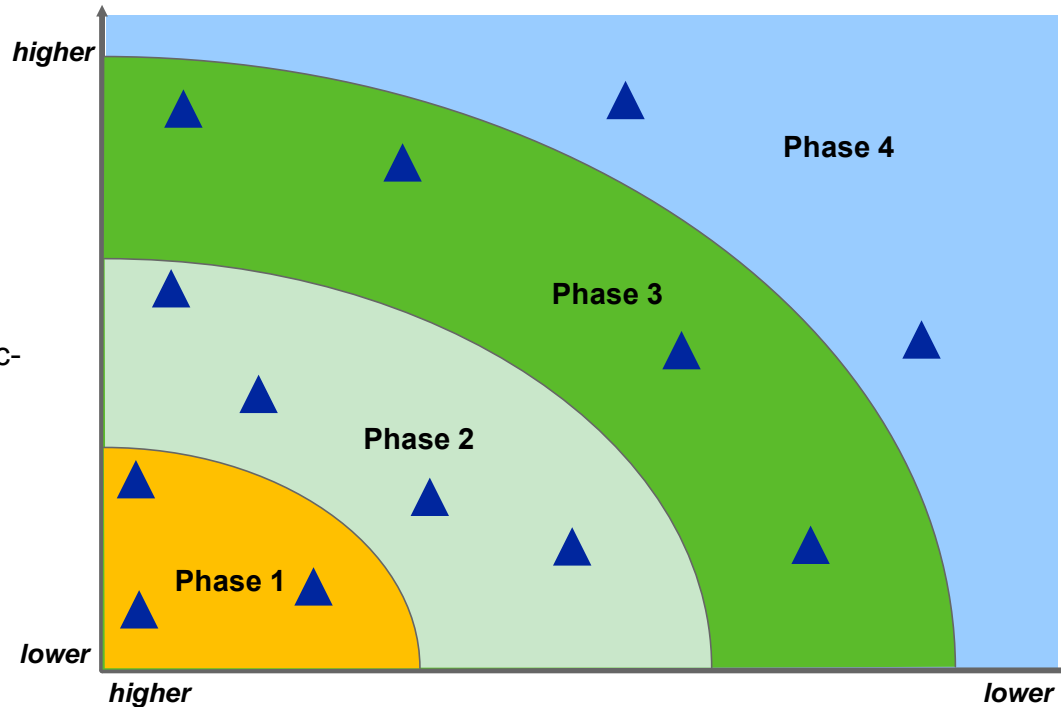

REOPENING MASSACHUSETTS IN PHASES

The Baker-Polito administration's data-driven approach to reopening the economy used a framework that considered the public health risk and the economic benefit of reopening each of the closed sectors of our economy. In addition to this framework, the Baker-Polito administration looked to what other states are doing, including our immediate neighbors and those that were similarly impacted by COVID-19.

Framework to inform which sectors should be considered for reopening in each phase:

Public health risk of reopening

Contact intensity, % of public-facing roles

Economic benefit of reopening

Unemployment claims, median income, % of small and medium businesses

▲ Illustrative sectors

REOPENING: PHASE 1 – START

The phased reopening gives businesses permission to reopen, but **reopening is not mandatory**. Businesses should refer to the Sector-Specific Protocols and best practices for detailed guidance on reopening and should follow a self-certification process.

Phase 1: Start

The following businesses will be eligible to reopen, subject to their ability to comply with all mandatory safety standards:

On May 18th

- **Essential businesses** stay open and continue to operate. Must comply with safety standards, and must self-certify by May 25, 2020
- **Manufacturing**
- **Construction**
- **Worship**
- **Hospitals and community health centers** who attest to specific public health/safety standards can provide high priority preventative care, pediatric care and treatment for high risk patients

On May 25th

- **Laboratory and life sciences facilities**
- **Offices, excluding those in City of Boston**; work from home strongly encouraged; businesses should restrict workforce presence to <25% maximum occupancy
- **Hair salons and barbershops** by appointment only
- **Pet grooming** by appointment only (curbside pet drop-off and pick-up)
- **Car washes** exterior car washing allowed
- **Recreation and outdoor** with guidelines
- **Other health care providers** who attest to specific public health/safety standards can provide high priority preventative care, pediatric care and treatment for high risk patients
- **Retail** remote fulfilment and curbside pickup

On June 1st

- **Offices in the City of Boston**, following applicable guidelines for the rest of the Commonwealth

HEALTH CARE

Effective May 18th, hospitals and community health centers who attest to meeting specific capacity criteria and public health/safety standards will be allowed to resume a limited set of in-person preventative, diagnostic and treatment services.

Effective May 25th, other health care providers who attest to meeting these standards may resume limited in-person services.

Services that may be performed are limited, **based on the provider's clinical judgment to (1) high-priority preventative services, including pediatric care, immunizations, and chronic disease care for high-risk patients and (2) urgent procedures that cannot be delivered remotely and would lead to high risk or significant worsening of the patient's condition if deferred.**

In order for the phased-in hospital expansion and non-hospital reopening, the following statewide metrics must be met. (1) 30% of hospital ICU beds (including staffed surge capacity) must be available. (2) 30% of total hospital beds (including staffed surge capacity) must be available.

Health care providers must meet the following requirements to reopen or expand services:

- Attest to public health standards and specific guidelines
- Adequate PPE on hand, reliable supply chain and other supplies and policies in place, not reliant on the state stockpile for PPE
- Infection control readiness (workflow, cleaning, social distancing, etc.)
- Workforce and patient screening and testing protocols
- Hospitals must have $\geq 25\%$ ICU and total bed capacity and reopen pediatric ICU and psychiatric beds if they had been repurposed for surge capacity

When making a clinical determination, providers (hospital, physician, other health care provider) are limited by the following criteria:

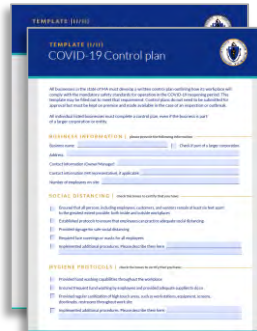

- The procedure cannot be provided through telehealth
- The service must be a high-priority preventative service including pediatric care and immunizations
- The procedure must be urgent and cannot be delivered remotely and could lead to high risk or significant worsening of the patient's condition if deferred

REOPENING: PHASE 1 – START

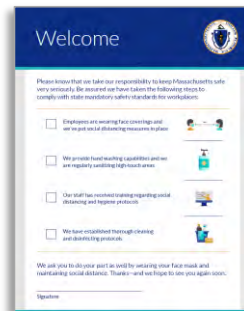

Mandatory self-certification for businesses

In order to reopen, businesses **must** develop a written COVID-19 Control Plan outlining how its workplace will prevent the spread of COVID-19. Required Materials are located on mass.gov/reopening, and include:

COVID-19 control plan template

Businesses may complete a template, available on the mass.gov/reopening, to fulfill this requirement. This plan **does not need to be submitted** to a state agency for approval, but must be retained on the premises of the business and be provided in the event of an inspection.

Compliance attestation poster

Businesses are required to sign a poster, attesting that they have completed a COVID-19 control plan, and post it in an area within the business premises that is visible to employees and visitors.

Employer

Worker

Other posters

Businesses are required to post signs and posters describing the rules for maintaining social distancing, hygiene protocols, cleaning, and disinfecting.

Note: All reopening businesses must meet these requirements before reopening. Businesses that are designated as essential may remain open but are required to complete these steps by May 25, 2020.

CARING FOR CHILDREN

The Commonwealth's mission in reopening is to increase access to childcare and youth programs, protect children and staff, and reduce the spread of COVID-19. Child care and summer recreation camps will reopen in a phased approach. The Departments of Early Education and Care and Public Health are developing guidelines that balance families' need for child care with health and safety. The initial reopening plan will focus on families who have no safe alternative to group care by increasing emergency child care capacity. EEC will also partner with industries returning to work to develop options specific to their workplaces.

Since March, **emergency child care** has been available to children of workers, with extra virus mitigation protocols

Childcare operating at reduced capacity and on an emergency basis for children of workers with no safe alternative to group care during Phase 1.

Implemented virus mitigation protocols including social distancing, cleaning and disinfecting, group ratio changes, isolation and contact tracing protocols, and extra staffing.

We continually solicit feedback from providers about operational support needed to reopen.

Going forward, we are continuing to tailor strategies to ensure **safe child care** and **recreational summer camp** options for Massachusetts families

Prioritizing safe child care options for workers with no safe alternative to group care. Leveraging and building capacity across the emergency child care system.

Partnering with industries returning to work as part of this reopening plan to ensure responsive, innovative options targeted to specific workplaces.

Opening on a phased basis recreational day camps in Phase 2 and residential camps in Phase 3.

Releasing detailed guidelines in the coming weeks.

TRANSIT (I)

The MBTA has been and will continue to implement measures to slow the spread of COVID-19 across the system to keep employees and riders safer.

While public transportation unavoidably creates some risk of transmission, the MBTA, riders and employers can significantly reduce that risk by working together:

Riders are required to wear masks and must make efforts to distance. Riders are asked to avoid riding transit if they are exhibiting symptoms of COVID-19.

Employers are encouraged to stagger schedules and implement work from home policies to reduce demand, especially during rush hours.

The MBTA will continue to take protective and preventative measures such as frequently disinfecting and cleaning vehicles and stations and providing protective supplies to workers.

To mitigate risk while providing appropriate levels of service, the MBTA will:

Support the transit needs of essential workers and those returning to the workplace in Phase 1 while continuing with limited service to maximize employee and rider safety.

Ramp up to a modified version of full service by Phase 3, although social distancing efforts will limit effective capacity on vehicles even after full service schedules are restored.

Actively communicate public health guidance and schedule adjustments in-station, online, and over social media.

TRANSIT (II)

	Current state: Stay at home	Phase 1: Start	Phase 2: Cautious	Phase 3: Vigilant	Phase 4: New normal
Bus	Adapted Saturday schedule	Unchanged	Additional service for high demand bus routes as staffing permits	Resume full 2020 schedule, as staffing permits. Add service to high demand routes	Resume FY20 full schedule/ possible peak addition**
Subway / Blue	Adapted Saturday schedule	Unchanged	FY20 full schedule	FY20 full schedule	FY20 full schedule
Subway/ Red	Saturday schedule	Unchanged	Increased service (shorter time between trains)	FY 20 full schedule	FY20 full schedule
Subway/ Orange	Saturday schedule	Unchanged	Increased service (shorter time between trains)	FY 20 full schedule	FY20 full schedule
Green Line	Saturday schedule	Unchanged	Increased service (shorter time between trains)	FY20 full schedule as staffing permits	FY20 full schedule
Commuter Rail	Reduced schedule	Unchanged	Additional trains including off-peak on Fairmount Line	Modified FY20 full schedule*	Modified FY20 full schedule*
Ferries	Closed	Unchanged	Reopen with reduced service	FY20 full schedule	FY20 full schedule

Most certain

Degree of certainty given the progression of COVID-19

Least certain

* FY20 schedule modified, where feasible, to reflect changed travel patterns in COVID-19 new normal and workforce availability

** MBTA has 60 buses on order so possible peak additions could add those buses to schedule, dependent on workforce availability

HYGIENIC AND PROTECTIVE SUPPLIES

In order to operate, all Massachusetts businesses will need to meet the Mandatory Workplace Safety Standards and relevant Sector-Specific Protocols published by the state.

The state has developed a **guide to educate** business owners on what supplies are needed to return to workplaces, and a **portal to connect** businesses with manufacturers and distributors.

Educational materials will be provided to define how an employer should prepare their work spaces to reopen and **what** products are appropriate for employees to protect themselves at work. **Medical grade face coverings are not necessary for non-health care workers**

Guidance on protective supplies, including, but not limited to:

- What can be used as a **face covering** and how to wear it safely
- When are gloves necessary for employees, and how to **wash your hands**

Disinfecting and sanitizing guidance and which materials to use, including, but not limited to:

- Disinfecting wipes/spray
- Sanitizing wipes/spray
- Hand sanitizer

A **searchable portal** has been launched to **connect** Massachusetts businesses in need of supplies with manufacturers whom are actively producing and selling hygienic and protective materials in the Commonwealth

Contact and product information for vendors who have or have had a contract with the Commonwealth.

Contract and product information for manufacturers that have pivoted to produce hygienic or protective supplies as part of the M-ERT process.

Manufacturing Emergency Response Team

Massachusetts manufacturers

Graduated M-ERT companies

Million pieces of PPE to date

Access supply vendors on mass.gov/reopening

K-12 SCHOOLS

As previously announced, Massachusetts' K-12 school buildings will remain closed through the end of the 2019-20 school year, with remote teaching and learning in place. Schools will continue offering essential non-educational services to their communities. Plans are being made for the summer learning programs and 2020-21 school year and will be shared with the public in the weeks to come.

K-12 school buildings will remain closed through the end of the 2019-20 school year

Potential for limited exceptions to be announced at a later date.

Remote teaching and learning should continue through the end of the 2019-20 school year

As previously announced.

Schools should continue offering essential non-educational services

Examples include take-out and food delivery to students and families.

Plans for the summer and 2020-21 school year are being developed and will be announced soon

We are developing plans for summer learning programs and the next school year and closely tracing the progression of the virus as part of the reopening process.

HIGHER EDUCATION

Massachusetts' diverse higher education institutions continue to foster teaching, learning, student support, and essential research remotely throughout this time. They are working together and in partnership with the state to ensure a safe and gradual return to campus life. In the upcoming weeks, institutions will develop customized reopening plans to ensure the safety of their communities.

Four key principles will guide the return to campus life for Massachusetts' higher education institutions

Protect the health and safety of students, faculty, staff and people in surrounding communities.

Enable students to make meaningful progress towards their educational goals.

Contribute to research and innovation.

Minimize adverse economic impact on families, employees and the Massachusetts economy.

Institutions will craft their own campus reopening plans for each phase, to be implemented once common key enablers are met

In all phases: Safety guidelines and health monitoring protocols will be implemented throughout all elements of campus life – including classrooms, housing, dining, facilities and services.

In Phase 1: Higher education institutions can repopulate **research laboratories and medical, dental, veterinary and allied health clinical education and services, and restart functions** necessary to prepare campuses to reopen. All activities must observe applicable social distance guidance.

In Phases 2 and 3: Following public health guidance, each institution will develop its own plans for course delivery which will likely involve a combination of in-person and remote learning in order to allow for social distancing on campus.

THANK YOU

We'd like to thank the Reopening Advisory Board and the numerous other stakeholders for their input in developing this report

Reopening Advisory Board:

Co-Chairs:

- Karyn Polito – Lieutenant Governor
- Mike Kennealy – Secretary, Executive Office of Housing and Economic Development

Members:

- Aron Ain – CEO, Kronos Inc & Ultimate Software
- Joe Bahena – Senior Vice President, Joseph Abboud Manufacturing
- Monica Bharel MD, MPH – Commissioner of the Massachusetts Department of Public Health
- Kathryn Burton – Chief of Staff, City of Boston
- Steve DiFillippo – CEO, Davio's Restaurants
- Pamela Everhart – Head of Regional Public Affairs and Community Relations, Fidelity Investments
- Wendy Hudson – Owner, Nantucket Book Partners / Co-Founder, Cisco Brewers
- Mark Keroack – MD, MPH, President & CEO, Baystate Health
- Nicole LaChapelle – Mayor, City of Easthampton
- Laurie Leshin – Ph.D., President, Worcester Polytechnic Institute
- Linda Markham - President, Cape Air
- Girish Navani – CEO and Co-Founder, eClinicalWorks
- Stephanie Pollack – Secretary of Transportation
- Daniel Rivera – Mayor, City of Lawrence
- Corey Thomas – CEO, Rapid 7
- Rochelle Walensky – MD, MPH, Massachusetts General Hospital
- Carlo Zaffanella – Vice President and General Manager, Maritime & Strategic Systems, General Dynamics Mission Systems
